

Corey Janssen

Hello, my name is Corey Janssen. My wife Tanya and I became part of the TCS family 9yrs ago when we enrolled our daughter, Katrina, into kindergarten. Two years later our son Luke started kindergarten at TCS and we have been here ever since. I grew up in a Christian family and attended Menno Simmons Christian School until grade 9. My father and Grandfather were part of the founding group for Menno so I've seen from a young age the commitment and effort it takes to start and grow a school where students can learn and grow in their faith. Tanya and I were looking for that same environment when we were searching for a school to send our kids to. I'm very happy to say we have found it here at Trinity.

Tanya and I were born and raised in Calgary. We met at church and have been married for 18 years. For a large portion of that time I worked as a Network Engineer designing cellular networks for Nortel and later Ericsson. In that role I had the opportunity to travel all over the world deploying networks in different countries. Then the kids came. More recently I've started my own home automation business. This has given me the flexibility to become more involved at TCS coaching volleyball and basketball as Katrina entered junior high. This has been a wonderful opportunity to meet Katrina's classmates and their parents. I look forward to the same opportunities with Luke's class.
